

**Objective      Cutting Edge Web Design**

University of Alaska, early '90s, I started taking computer classes "each" semester while studying for a BS degree. I stayed on top of newest developing business SW,

- desktop publishing, web design, internet applications, and Operating Systems.
- The certificate design courses below were taken mid-way at UAA's division Community Technical College, in addition to university semester computer classes that I began early '90's. My studies to date continue in leading cutting-edge software and top high-end desktop publishing and design industry applications.

**Computer Skills**

Windows XP Professional OS and previous versions. MAC 9 OS and previous versions. Microsoft Office XP Professional and previous versions. Average TCP/IP, configuration, troubleshooting, broadband, SW installation and HW setup, email, home network administration, firewall security, filesharing and management. Base understanding of DOS, UNIX, LAN, WAN.
